A HANDSOME CLUB-HOUSE.

More Than a Hundred Applications for Membership Received - The Links Almost Ready for Play, Charter Will Be Applied for

The organization of the Hermitage Golf Club is now well under way and at the meeting of the Board of Directors, held last Friday night, at the Commonwealth Club, the constitution and by-laws were drawn up, though laid over to be considered and adopted at a meeting which will be held some day this week. In the organization of this club is the beginning of a revival of athletics in Richmond, as the plans the club has for the future are extensive and include the promotion of every branch of aibletic sport. Though known as a golf club, this game will not monop lize the attention of its members, as a cricket team will be developed. Tennis, baseball and possibly football will re-ceive attention. The proposed club-house will be erected just west of the Audito

(By Associated Press.) STAMFORD DEPOT, CONN., October 27.—Mr. Bryan occupied the rear coach of a special train on his way from New Haven to New York. One of the coaches of the train was paid for and occupied by about one hundred and fifty Yale students, comprising the Democratic Club of that institution. They had scarcely left New Haven when Mr. Bryan was invited into the Yale car, and there was given such a hearty reception as he has seldom received. He was introduced to all the members of the club, and joined with them in singing some of their college songs, himself leading in intoning "Here's to Good Old Yale." He was presented with a

THE RESULT WAS A SURPRISE.

The Visitors Were Outweighed by the Local Eleven, but Pluck and Dash Proved Winners.

Woodberry Forest defcated the Spiders yesterday by a score of 6 to 6. The game was a surprise and Richmond was outclassed by the visitors. From the time Owen kicked off until time was called, Woodberry Forest could give the Spiders points on hard football playing. The bail was Woodberry's on the twenty-five yard line, and the determined set of youngsters were in the game for a score.

Woodberry kicked off to Richmond and

The Orange boys did some fine playing, and steadily advanced the ball, but lost it on R chmond's twenty-yard line. The collegians here braced themselves and did good work. Polard themselves and did good work, Polard making a pretty gain around left end for thirty yards, and Lankford, Broadus and Ellyson, each making good runs. But on Woodberry's twenty-five-yard line Richmond again lost the ball and the visitors were again given yn yards on a foul. At this stage of the game the college boys woke up, and for a while appeared to be interested, but were unable to score.

to score.

The general team-work may be commented upon as of high order. They played together and incidentally played individually. Stringfellow at end played one of the fastest, grittlest games seen at Broad Street Park this season. Hump at first half and Walker at full, played splendid ball, tackling surely and frequently gaining ground.

The college never had the ball in thir possession so close as the twenty-five-

ssession so close as the twenty-five ard line. The game was characterized by offside plays and questionable interfering methods.

The college plays Blacksburg next Sat. urday, and the boys are determined to give a good account of themselves. Many old football men are in the college, but heretofore have refused to play, owing to great amount of classwork. Morrison, of Virginia Military Institute, full back of '8s team, will play at full. "The Democratic party is the conservative party of to-day, the Republican party the revolutionary party. The Democratic party is defending time-honored principles; the Republican party is urging new experiments. The Democratic party is applying familiar principles to new conditions; the Republican party is removing the ancient landmarks. In advocating bimetallism we advocate a financial system whose usefulness is attested by thousands of years of history, as well a by our own national experience and by the past platforms of the Republican the past platforms of the Republican party and all other parties. "In advocating an income tax we advocate a system which received the sanction of Abraham Lincoln, and which is now practiced in many of the leading nations of Europe. In opposing government by injunction we are simply defending the jury system, which has been described as the bulwark of English freedom, and is as important here as in England. The meanest thief and the blackest murderer are entitled to trial by jury; why should a laboring man be denied such a trial merely because some great corporation is his antagonist? In advocating arbitration we are applying to the relations which now exist between employer and employe the old theory of court of justice, wherein disputes were settled by right rather than might.

"But I call especial attention to the fact that the Republicans in this campaign have adopted three new and dangerous theories: First, that industrial despotism is wise; second, that a large army is necessary; and, third, that a colonial policy is right.

NEW HAVEN MEETING.

Yale Students Listened Attentively to Mr. Bryan.

(By Associated Press.) NEW HAVEN, CONN., Oct. 27.—The Yale students to-day had their first meet ing of the present campaign with Mr. Bryan. When Mr. Bryan first visited this during the Presidential contest of 1896, he was not given a very agreeable reception. Twice since that time he has

reception. Twice since that time he has lectured here very successfully, speaking on other than political themes.

Mr. Bryan arrived at 11 o'clock and was escorted directly to the Second Regiment Armory, a large hall in which the meeting was held and in which many students had gathered. He was greeted as he entered the hall with general cheers. There were cries of "what's the matter with Bryan" and responses "he's all right." When Mr and responses "he's all right." When Mr. Bryan began to speak there was general silence in the audience, and while there were afterwards slight interruptions, it seemed evident from the beginning that there was no intention to make unfriendly demonstrations such as rendered remark-able Mr. Bryan's vsiit to New Haven four years ago, when Yaie students literally broke up a vast open-air meeting

on the green.

Mr. Bryan discussed trusts and imperlalism along the usual lines. In speaking of trusts he said:

"Right here I want to say that I be-"Right here I want to say that I believe in trusts. They are a good thing,' and then recognizing that he had said a dangerous thing for a Republican to say in a campaign, he turned and said:

"If that newspaper man puts that down I will make trouble for him."

"I want to remind the man who wants to know about silver that you do not have to ask questions to find out our policy on the question. In referring to the arguments of the Republicans that Bryan's election meant 50c. dollars and a debaced currency, Mr. Gordon said, as a matter of fact, there had been more silver dollars coined by the present administration than had ever been coined in the same length of time, and that the ratio had not been changed. He said the Republicans had tried to make prosprity the paramount issue, but make prosprity the paramount issue, but that there was and could be no substan-

At the conclusion of Mr. Gordon's address, Mr. Ellyson presented Mr. Montague in most complimentary terms.

The applause was loud and long continued, as the brilliant young Attorney-General came forward, gracefully bowed his acknowledgments and commenced his magnificent address. He was often interpunted by the wilder of applause as he rupted by the wildest of applause as he spoke. Mr. Montague went immediately into the discussion of the subject of trusts, upon which he eloquently and bitterly arraigned the position of the Republican party. He said the high rank which the American nation had taken among those of the earth had come through fair and honest competition, and that all the reservances. honest competition, and that all the people asked was a fair field and no favor. The Kepublicans, said the speaker, claimed The Republicans, said the speaker, camed that keroseine oil was now cheaper than it had ever been, but the question was, was it as cheap as it should be? He contended that it was not and went on to prove it. He then asked was it as good as it should be, which he answered like-wise, "no." He said there was no better definition of present business conditions under the Republican party than "com-marked described".

DEMOCRATIC REMEDY. The remedy for the trust evil, contended the speaker, was the tearing down of the tariff walls around every article manufactured by the protected monopolles, and the affording of the freest competition in the business world. Another remedy was the election of a President who would appoint an attorney-general, who was not a creature of the trust, and who would do his duty fully and faithfully. CAMPAIGN NOTES.

Chairman Ellyson well known throughout the State for the dexterity and ability with which he manages the Democratic campaigns from year to year; but now and campaigns from year to year; but now and then he is asked to do an impossible thing. He received a hot telegram from a distant county yesterday morning at IU20 o'clock, which read something like this: "Send us a good speaker for I2 o'clock today." Of course, it was a physical impossibility, much as the courteous and watchful chairman desired to comply with the request.

that there was and could be no substantial prosperity when the trusts were grinding the people to death beneath their rolling wheels.

He said that for every railroad and bank the president who left the Democratic party this year there would be ten Republicans who could not follow their party in their effort to destroy our free institutions, and who would vote for Bryan.

Mr. Gordon closed his splendid address with an eloquent appeal to his hearers to turn out on the day of election and see to it that old Virginia did her duty and stood steadfastly by the sacred principle that all governments derived their just powers from the consent of the governed.

Rousing Reception.

A very largely attended meeting was held by the Democratis at West View. In Goochland, yesterday afternoon. The meeting was addressed by Hon. Charles Mr. Wallace, Jr., of the city of Richmond, who delivered a well-connected and eloquent speech, in which he discussed the paramount issue of imperialism. His speech was a convincing and inspiring one spoke from 2 o'clock until 5, the crowd constantly increasing, and at the close the people crowded around him and gave him a small-sized ovation.
